BRIEF INTRODUCTION

THE PRODUCT

The PD-330/ PD-2606 is a rear mount customer display designed for Posiflex XP-2000/3000 series POS terminals. It is delivered in separate carton for XP-2000/3000 series and shall be installed per instructions in this manual.

FEATURES

- LCD (Liquid crystal display) with dark blue character and yellow green back-light for PD-330
- Bright VFD (vacuum fluorescent display) with green or blue filter for PD-2606
- Two-line display with 20 characters per line
- Easy viewing characters (6.0 mm by 9.66 mm for PD-330 / 9.03 mm by 5.25 mm for PD-2606)
- Long life and trouble free operation
- Simple installation
- USB or Serial interface model
- Selectable command emulation modes including PST and EPSON command emulation modes for PD-330
- Various command emulation modes selectable by DIP switch for PD-2606
- Support 13 Code Pages of 128 characters each for PD-2606
- Support 12 international character sets of 12 characters each for PD-2606
- Supports UPOS 1.8 and is WEPOS ready for PD-2606

INSTALLATION GUIDES

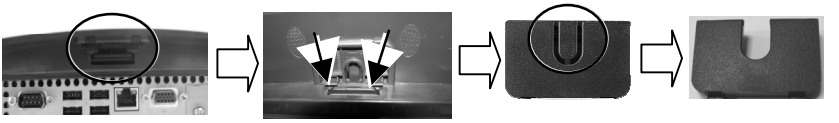
HOST SYSTEM PREPARAION

This adjustment has to be done by a qualified electronic technician to follow the guide from relevant technical manual. The power for the USB or Serial interface type pole display is supported through the USB or Serial connection. Please contact local dealer for more information.

INSTALLATION

To fix the rear mount upgrade kit like PD-330 or PD-2606 on the back of XP-2000/3000 series, please apply carefully the 5 small fixation shoulder screws that come along with PD-330 or PD-2606. Before fix the upgrade kits, there is one step needs to do. Please release the cable exit cover as following steps:

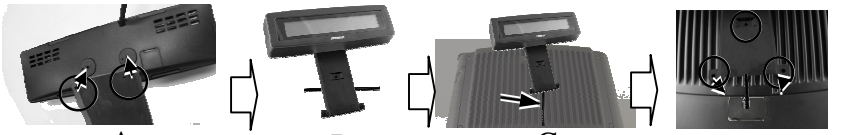
A: Please find the back of cable cover which just near the I/O plate.
B: Please uses the Fingertip to release compression lock locate inside of back cover.
C: after the cable cover released, please cut the circle part which show in the picture C.



A B C

After finish this step, the cable cover can be use when the rear mount upgrade kits fixed.

In addition, please take out the bracket, screws and the main item of display from the package, and fix these items as following steps:



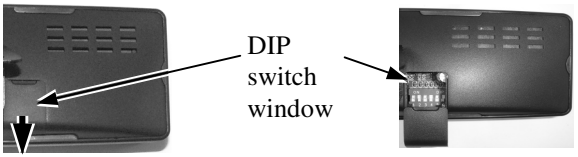
A B C D

A: Please take the bracket and find the side of two screws holes which with mistake-proofing holes and aim to the PD main unit.
B: Fix the bracket and PD unit item then turn the screen face to you.
C: Please route the PD's cable into the cannelure which is between fins and near the screw hole.
D: Please aim the three screws holes to the back cover of XP-2000/3000 series main unit and fasten them to fix PD on the XP-2000/3000 series.

After fix the customer pole display, it may use the cable cover to manage the cable.

COMMAND EMULATION MODE SETUP (FOR PD-2606)

Now please check the back of PD-2606 display head as in the picture below. There is a small piece of plastic cover for the "DIP switch window".
Slide the cover downward but don't pull it off otherwise you may have to practice for inserting it back. You can find 6 positions of DIP switches in this window. Adjust for the appropriate command mode used by the application program according to below table. Switch position counts from left to right and "ON" means pushed up as indicated in the right part picture below.



Switch Position						Command Mode
1	2	3	4	5	6	
ON	OFF	OFF	ON	OFF	OFF	ADM
ON	OFF	ON	ON	OFF	OFF	Aedex
ON	OFF	ON	OFF	OFF	OFF	Epson
ON	OFF	OFF	ON	ON	OFF	Futaba
ON	OFF	ON	OFF	ON	OFF	Noritake
ON	OFF	ON	ON	ON	OFF	UTC

The factory default command mode is set to Noritake mode for normal delivery. Please change it to Epson mode if OPOS or UPOS driver is used for the application program.

POWER ON SIGN

With interface cable connection well installed, turn on the XP-2000/3000 series terminal, a firmware identifier as power on sign will appear on the pole display screen for a while to indicate that pole display is self-tested O.K. and ready to work.

USING THE CUSTOMER DISPLAY

COMMAND MODE SELECTION GUIDE

The below table provides some comparison for selection on command mode to be used in the application program for PD-2606 if it is not yet determined.

Mode	ADM	Aedex	Epson	Futaba	Noritake	UTC
Cursor	N.A.	N.A.	Invisible	Blinking Block	Blinking Block	Blinking Block (DP)
Default mode	N.A.	N.A.	Over/W	V. scroll	Over/W	PT
User defined font	N.A.	N.A.	2 chars	N.A.	2 chars	2 chars (PT)
Brightness control	NO	NO	YES	YES	YES	YES (DP)
Leading code change	NO	YES	NO	YES	YES	YES (PT)
Code page select	NO	NO	YES	YES	YES	YES
Auto scroll message	NO	NO	NO	YES	YES	YES (PT)
Timer clock	NO	NO	YES	NO	NO	YES (PT)

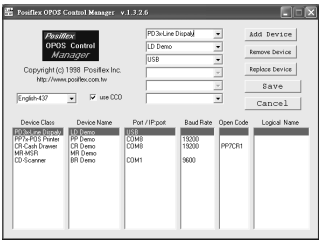
For PD-330 it is always the Epson command mode at power on. It can enter or exit the PST command mode through software command.

DRIVER INSTALLATION

Copy the driver and library from Posiflex Product Information CD or DVD under \Drivers\PD23_26U to your system or download from web site http://www.posiflex.com.tw/Download%20list.asp?Status=1&Series_Name=PD%20Series&Model_Name=PD-2300U. Follow instructions given in the file "README.TXT" to send commands (listed later in this manual) and data to the customer display under the programming language.

FOR OPOS APPLICATION:

Find the subfolder \Drivers\UPOS\OPOS of the Posiflex Product Information CD or DVD or download it from web site http://www.posiflex.com.tw/Download%20list.asp?Status=1&Series_Name=UPOS&Model_Name=OPOS and execute the file "SETUP.EXE" to install the OPOS Control Manager. To add the customer display under



OPOS control please set in OPOS Control Manager device name “PD3x-Line Display” in the top row.

SPECIFICATION

OPTICAL

Number of digits	20 digits/row, 2 rows
Dot matrix	5 X 7 dots
Digit height	9.66 mm (PD-330) / 9.03 mm (PD-2606)
Digit width	6.0 mm (PD-330) / 5.25 mm (PD-2606)
Display color	Dark blue (PD-330) / Green (PD-2606)

MECHANICAL

Display Head Height	57.5 mm
Display Head Width	196.6 mm
Display Head Depth	39.5 mm
Case color	Black

ELECTRICAL

Power from interface port of XP system: + 5VDC 1A max.

ENVIRONMENTAL

Operating temperature	0° to + 40°C
Storage temperature	-10° to + 60°C
Operating humidity	20% to 85%, non-condensing
Storage humidity	5% to 90%, non-condensing

WARNING: If the user opens the pole display housing to make any modification, all the product warranty will be voided.

NOTE: Please refer to Posiflex Product Information CD or DVD or visit our web http://www/posiflex.com.tw for further information when needed.

APPENDIX

APPLICABLE COMMANDS (FOR PD-330)

EPSON COMMAND MODE (POWER ON DEFAULT):		
NAME	**HEX CODES**	**FUNCTION**
BS	<08>	Move Cursor Left
HT	<09>	Move Cursor Right
LF	<0A>	Move Cursor Down
HOM	<0B>	Move Cursor To Home Position
CLR	<0C>	Clear Display Screen
CR	<0D>	Move Cursor To Left Most Position
CAN	<18>	Clear Cursor Line
ESC =	<1B><3D><n>	Select Peripheral Device / Command Mode n=1 pass through (should not be used) n=2, 3 (not required) n=4 switch to PST command mode
ESC @	<1B><40>	Initialize Display
ESC t	<1B><74><n>	Disable / Enable Euro Dollar Sign n = 0, 19
US MD1	<1F><01>	Specify Overwrite Mode
US MD2	<1F><02>	Specify Vertical Scroll Mode
US MD3	<1F><03>	Specify Horizontal Scroll Mode
US LF	<1F><0A>	Move Cursor Up
US CR	<1F><0D>	Move Cursor To Right Most Position
US $	<1F><24><n><m>	Move Cursor To Specified Position n = 1 ~ 20 m = 1, 2
US @	<1F><40>	Show Version
US B	<1F><42>	Move Cursor To Bottom Position
US C	<1F><43><n>	Cursor On / Off, n = 1, 0
US E	<1F><45><n>	Blink Display Screen n = 0 ~ 255

PST COMMAND MODE:	
HEX CODES	**FUNCTION**
<01>	Set Pass Through Flag (should not be used)
<06> <N_1> <N_2>	Change Leading Code
<14> <01>	Wraparound Mode (Default)
<14> <02>	Vertical Scroll Mode

<14> <03>	Insert Mode
<14> <04>	Overwrite Mode (Default)
<14> <08>	Back Space
<14> <09>	Move Cursor Right
<14> <0A>	Move Cursor Down
<14> <0B>	Move Cursor Left
<14> <0C>	Delete Character
<14> <0D>	Move Cursor To Left Most Position
<14> <0E>	Clear Display
<14> <10>	Clear Line 1
<14> <11>	Clear Line 2
<14> <12>	Cursor Block Mode
<14> <13>	Cursor Under Line Mode
<14> <15> <02>	Clear Pass Through Flag
<14> <16>	Switch To Epson Mode
<14> <17>	Cursor On
<14> <18>	Cursor Off
<14> <19>	Reset
<14> <1A> <P>	Move Cursor To Position P (P=0~13,14~27h)
<14> <1B>	Move Cursor To Rightmost Position Of Line 1
<14> <1C>	Move Cursor To Rightmost Position Of Line 2

The Euro Dollar Sign is designated at code <D5>h.

COMMAND CODES SUMMARY (FOR PD-2606)

Command	**Function**	**Command**	**Function**
